URGE PROTECTION.

Cotton Situation Seriously Alarming Bankers and Producers.

Telegrams are pouring in to members of Congress from southern bankers and some producers urging that the government take action with reference to the cotton situation without delay in the fear that the market might break to a low point. There is danger, some of the interior points report, of there being no market for cotton after the middle of August. It is pointed out that with a 15,000,000 bale crop in sight the market will not consume in excess of 9,000,000 bales, leaving a surplus of 6,000,000, which would give a total surplus of 9,000,000 with the three million carried over from the last crop, unless there is a better opportunity to move the cotton. The condition, as viewed by the banking interests, has revised a situation for creation of the United States Cotton Corporation, which could deal with cotton as an international asset and save the south from probable embarrassment. The bankers say they particularly feel the need of action, in view of the large amount of cotton paper carried by them. Members of Congress from the south do not view with favor the price fixing plan that has been agitated, unless it is apparent nothing else will meet the situation. They insist that the producer would have to have a minimum of 25 cents per pound in order to make a profit.

ICE CREAM SUPPER.

The Red Cross ladies of Hickman will have an ice cream supper at the railroad park tomorrow (Friday) night, the proceeds from which will be used for Red Cross work. The cream will be furnished gratis by Ben Nearing, who has two brothers in France. Get some of the Ben Nearing spirit of liberality and attend the supper. If you don't relish ice cream—take a bunch of friends who do.

It is predicted that within a very short time after the government takes control of the telegraph and telephone service of the country that the "two-system" phones in the cities will be cut out, and there will be only one system. There are over one thousand cities in the United States with two telephone systems, which are costing the people unnecessarily thousands and thousands of dollars.

The supply of kerosene will run short next winter and government is urging every user to do his part toward making every gallon to do full war duty by giving forth its full measure of light and heat. Saving can be accomplished, it is said, only if care is given lamps, lanterns, heaters and stoves.

On Thursday evening of last week Miss Irene Faris entertained a few friends at Bridge in honor of Mrs. Conrad, of New Madrid, Mo., who is the guest of Mrs. A. A. Faris, Jr. An ice course was served.

The river at this point is very low at the present time, a big snag showing up several days ago just opposite Cowgill's drug store. This was pulled up on Saturday by the snag boat, Macomb.

Mrs. J. W. Flynn and daughter, Miss Katie Frank Flynn, left the latter part of last week for Paducah where they will reside. Mr. Flynn went there about two or three weeks ago.

For Sale or Trade: 1918 model five-passenger Ford, new; one 1917 model 5-passenger Ford. Will sell or trade for mules.—Paul Choate, Rfd. No. 4 Ip

Hern Brown and wife returned to Nashville on Monday after a week's visit to the former's parents, J. R. Brown and family.

You'll want to buy several dresses when you see the bargains offered in Smith & Amberg's August Clean-Up.

Misses Annie Carr and Mary Hardy Ligon are able to be up after a few weeks' illness of malarial fever.

All Leibovitz's work clothing are made of only the best materials, and full in size.

For Sale: Registered Red Poll Bull ready for service.—F. P. Henry Rt. 3, Sp.

Miss Nannie Nonan has accepted a position as saleslady in E. Dobson's store.

5 FEET—103 LBS.

Change in Military Regulations Will Qualify Smaller Men.

The Local Board of Fulton county is in receipt of revised instructions regarding the qualification of men for military service. Heretofore, if a man weighed less than 116 pounds or was less than 5 feet 3 inches high, he was turned down. The new ruling lowers the figures so that the man weighing as much as 103 pounds or is not less than 60 inches high may be placed in service.

This ruling will re-qualify a number of drafted men in Fulton county, who were originally turned down on under weight and height. They will be re-classified by the Board and certified for service.

DIED OF FEVER.

Well Known Lady of Rush Creek Station Died Sunday Afternoon.

After a lingering illness of fever, Mrs. Frankie, wife of Will Lyman, died at her home Sunday afternoon on the Albert Roper place, near Rush Creek.

Mrs. Lyman is survived by her husband, two sons and two daughters, all small children. She was 35 years old and a faithful member of the Methodist church. Funeral services were conducted by Rev. Hampton, of Moscow, after which the remains were laid to rest at Rush Creek cemetery.

Ford Truck For \$230. Only \$230 cash buys an attachment for your Ford car that will pull two 12-inch plows. We have them in stock. Let us show you.—Hickman Hardware Co.

MODERN EQUIPMENT.

Garage Will be One of Most Up-to-Date in Kentucky.

Cayce B. Parrish and Elvis Williams have returned from St. Louis where they went to purchase equipment for the new Parrish & Ward garage, now under construction. Mr. Parrish tells that he bought the very latest and best to be had, including several automatic appliances. With a \$10,000 building and equipment to match, Messrs Parrish & Ward will undoubtedly have one of the finest garages in western Kentucky.

Harry C. Hartwick, who is now temporarily located at Cairo, is here visiting his sister, Mrs. Percy Jones, and brothers Arch and Ben Hartwick. This is his first trip back to the old town in 17 years.

ICE SHORTAGE.

Heat Wave Creates Big Demand for Ice in Hickman.

The ice plant of the Ky. Light & Power Co. at Hickman, was unable to supply the demand for ice Sunday when the last cake from the big storage room was sold. As fast as the 300 pound cakes were "pulled" from the freezing vats, customers were waiting to take them. The plant has a capacity of fifteen tons every 24 hours—and it is needless to say it is run full time. None of this ice went away from town, either. The extremely hot weather of the past few days resulted in an unusually heavy demand for ice. While all customers are being supplied at present, the company is not able to create any reserve.

Boys' Wash Pants, 65c.—Dobson's.

NO WHEATLESS DAY.

Domestic Users Released From Observing One Flourless Day.

Another step toward partial resumption by the nation of its old habits of eating was taken Saturday by the Food Administration in releasing the housewives from voluntary pledges to curtail the consumption of wheat by observing one wheatless day each week. This follows closely the release of hotels, restaurants, clubs and effective August 1.

No change has been made, the Food Administration announced, in the half-and-half rule, and purchasers of wheat flour will be required to continue the purchase an equal weight of wheat substitutes. Bakers will be required to make "victory" bread, containing at least 25 per cent wheat substitutes. Coming in of the new wheat crop has made it possible for the release of voluntary wheat saving pledges, the administration said.

Farmers, who raise wheat, may still get 12 pounds of flour per month for each member of their family, while non-wheat raisers are still subject to the six pounds a month per capita restriction. Farmers exchanging wheat for flour may secure a three months supply at one time, if they so desire, but no more.

STORE BURGLARIZED.

Bradberry's store, in East Hickman, was broken into Friday night and \$10 or \$15 worth of merchandise stolen, including fruits, candy, cigars, etc. The act was committed some time between 1 o'clock and daybreak. No clue was left.

Fred Bondurant, who is now stationed at Dayton, Ohio, and wearing the insignia of the aviation corps spent the first of the week with his parents, Mr. and Mrs. W. T. Bondurant, and Hickman friends. Fred is in the army school, where instruction is given in the construction and operation of machine guns, bombs, etc. He has reason to believe that he will go over in a very short time, and will probably be assigned to handle a machine gun on an aeroplane. Fred is looking fine but is considerably lighter than when he left home.

H. C. Barrett returned Friday from the Chicago markets. He tells us that it is next to impossible to purchase goods now—especially the cheaper grades—owing to war conditions.

Mrs. Grant Delph arrived here from Nashville on Tuesday on a short visit with her parents, Nim Walker and wife. She will leave the last of the week for a visit in Michigan.

MONTHLY PAYMENTS.

War Insurance Not Paid in Lump Sum, But 240 Installments.

Widespread impression that insurance of men in the military service is paid in lump sum after their death, led the war department to make the announcement that payments of benefits under the war risk insurance act are made over a period of twenty years. The insurance is payable on the death of the insured on the basis of \$5.75 per month for each \$1,000 of insurance for 240 monthly installments. For the maximum of \$10,000 the beneficiary would receive a payment of \$75.50 per month for twenty years.

Rumors, which are rather more numerous and just about as consequential as tree leaves in Washington, are having a grand debate among themselves. Half of them say that the President will oppose or veto war prohibition; the other half say that he is about to come out openly for it. There is little doubt that some time before November 1st, the Congress of the United States will enact a war prohibition law. Will the President veto it? We have not the remotest idea that he will be guilty of such criminal folly.

COTTON PRICES.

Not to be Fixed by Government at Present, Official Says.

That the War Industries Board is not going to fix the price on cotton is indicated by a letter received by H. G. Hastings, president of the Atlanta Chamber of Commerce, at Atlanta, from George R. James, chief of the cotton and cotton linters section, War Industries Board.

The letter follows: "So far as the immediate future is concerned, I think you need give yourselves no uneasiness about the War Industries Board attempting to fix prices on cotton, for as a general rule, no attempt is made by the War Industries Board to fix prices on any raw materials where the surplus is assured."

In the minds of some it is a question whether it would not be better for the planter if the prices were fixed, provided they were in line with the present cost of production, rather than run the risk of a demoralized market. Recent tendencies of spot quotations have not been encouraging for the new crop.

CALOMEL DYNAMITES
A SLUGGISH LIVER.

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile, it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

A CALL TO DUTY

From the battle fields in France there comes an unspoken call that should find an answer in every American heart. The recent great events in Europe, the successes or American arms on the fields of France should spur every American to greater effort.

Our people at home should not rest on the laurels of our soldiers in France. Every death on the field of honor in the line of duty and for our country's cause should be a call to us for every sacrifice and every exertion to aid the cause for which our soldiers are fighting, for which our soldiers have died.

Increase production, decrease consumption, save, and lend to the Government. Every cent lent to the United States is used to support, strengthen and aid our soldiers in France.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC gives regularly two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

The fuel administration has been urging the people since March to lay in their supply of coal for next winter. When zero weather comes and no coal can be secured, just go around to the chimney corner and butt your brains out for not having sense enough to do what the government said you ought to do to keep from freezing.

No man, no matter if he can count his bonds by the thousands and bank stocks by the million, has the right in these strenuous times to "lie around and do nothing." The vagrancy law should reach out for him and demand that he obey the scripture injunction to "earn his bread by the sweat of his brow."

MONTHLY PAYMENTS.

War Insurance Not Paid in Lump Sum, But 240 Installments.

Widespread impression that insurance of men in the military service is paid in lump sum after their death, led the war department to make the announcement that payments of benefits under the war risk insurance act are made over a period of twenty years. The insurance is payable on the death of the insured on the basis of \$5.75 per month for each \$1,000 of insurance for 240 monthly installments. For the maximum of \$10,000 the beneficiary would receive a payment of \$75.50 per month for twenty years.

Roy P. Shelton, an old Hickman boy, now in the U. S. Radio School, at Harvard, is here on a 30-day furlough visiting his mother, Mrs. Martha Fields, and other relatives and friends. Uncle Sam has 5,000 bright young fellows in his school at Cambridge acquainting themselves with electricity and the mystery of wireless telegraphy.

Rumors, which are rather more numerous and just about as consequential as tree leaves in Washington, are having a grand debate among themselves. Half of them say that the President will oppose or veto war prohibition; the other half say that he is about to come out openly for it. There is little doubt that some time before November 1st, the Congress of the United States will enact a war prohibition law. Will the President veto it? We have not the remotest idea that he will be guilty of such criminal folly.

COTTON PRICES.

Not to be Fixed by Government at Present, Official Says.

That the War Industries Board is not going to fix the price on cotton is indicated by a letter received by H. G. Hastings, president of the Atlanta Chamber of Commerce, at Atlanta, from George R. James, chief of the cotton and cotton linters section, War Industries Board.

The letter follows: "So far as the immediate future is concerned, I think you need give yourselves no uneasiness about the War Industries Board attempting to fix prices on cotton, for as a general rule, no attempt is made by the War Industries Board to fix prices on any raw materials where the surplus is assured."

In the minds of some it is a question whether it would not be better for the planter if the prices were fixed, provided they were in line with the present cost of production, rather than run the risk of a demoralized market. Recent tendencies of spot quotations have not been encouraging for the new crop.

CALOMEL DYNAMITES
A SLUGGISH LIVER.

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile, it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it. advt.

A CALL TO DUTY.

From the battle fields in France there comes an unspoken call that should find an answer in every American heart. The recent great events in Europe, the successes or American arms on the fields of France should spur every American to greater effort.

Our people at home should not rest on the laurels of our soldiers in France. Every death on the field of honor in the line of duty and for our country's cause should be a call to us for every sacrifice and every exertion to aid the cause for which our soldiers are fighting, for which our soldiers have died.

Increase production, decrease consumption, save, and lend to the Government. Every cent lent to the United States is used to support, strengthen and aid our soldiers in France.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

When zero weather comes and no coal can be secured, just go around to the chimney corner and butt your brains out for not having sense enough to do what the government said you ought to do to keep from freezing.

WINTER GARDEN ON EVERY SOUTHERN FARM

(Prepared by the United States Department of Agriculture.)

Every Southern garden should have a supply of lettuce, spinach and radishes throughout the fall and winter and spring, as they can be easily grown and form valuable additions to the usual dry, winter diet. With more of such food products in the diet, there would be less use for spring tonics and other medicines. In addition to this, these food products are palatable and serve to lower the cost of living.

These crops attain their best development on a sandy loam soil well supplied with humus or decayed vegetable matter. All of them thrive best during the late fall or early spring and will not withstand the heat of summer. In all sections of the lower South, lettuce, spinach and radishes can be grown in the open throughout the fall, winter and spring. In the more northern of the Southern states and in high altitudes these crops can be grown in fall and spring in the open and during the winter in hotbeds or cold frames.

To have lettuce and radishes throughout the season, it is advisable to make sowings of seeds every two or three weeks. As soon as the crop is removed, another crop should be planted. The radish seed might be sown between the rows of lettuce if hand cultivation is to be given. The radishes would be harvested before the lettuce reached sufficient size to crowd. By making two sowings of spinach, one in the fall and another in late winter or early spring, a continuous supply can be secured.

Lettuce.

In growing this crop in the open or in hotbeds and cold frames, the best results can be secured by sowing the seed in a well-prepared bed and transplanting the young plants. Sow the seed thinly in drills 4 to 6 inches apart and cover about one-half inch deep. For the best results, transplant the young plants as soon as they form the first true leaves. Set these plants in a cold frame 2 inches apart each way and at soon as they reach a height of 1½ to 2 inches, take up the plants with a trowel or spade and set to the permanent bed. If planting in the field, set the plants 8 to 10 inches apart in rows 14 inches apart. When

of the head type. For home use, the Hanson of California Cream Butter might be grown, as they are of better quality than the Big Boston. The markets of the East demand a hard head lettuce of the Big Boston type, but the markets of the Central use more of the loose-leaf lettuce. Unless growing for local market, however, it is best to grow the headed type, because large quantities of the other kind are grown under glass in the central states.

Spinach.

Spinach can be grown in the open in all sections along the coast from Norfolk, Va., south and in practically all sections of the lower tier of Southern states. In the colder regions of the South, this crop can be grown in the open with a little protection or in canvas-covered cold frames throughout the winter.

The soil should be made fairly rich. Well-rotted manure is the best fertilizer, but if this is not available, apply at the rate of 50 to 100 pounds of a high-grade fertilizer per tenth acre. Sow the manure or fertilizer broadcast and thoroughly harrow into the soil. Five ounces of seed will make two plantings on the plot 20 feet square in drills 10 to 12 inches apart. Thin the plants out to stand three or four inches apart. Frequent shallow cultivation by hand or with a wheel hoe should be given. When grown in frames, the cultivating must be done by hand. In most sections of the South, however, spinach can be grown in the open without any protection, as a hard freeze causes very little injury.

The variety of spinach most commonly grown is the Savoy. At Norfolk, Va., the large truckers grow a strain of this variety called the Norfolk Savoy.

Radish.

Radishes should be grown rapidly to insure good table qualities. The soil should be fertile and contain abundant moisture. Fresh stable manure should not be used, however, as it would produce excessive leaf growth. Well-rotted manure is the best fertilizer and should be applied at rate of about two tons per tenth acre. If no

SOUND RADISHES OF UNIFORM SHAPE AND SIZE.

transplanting to frames, the plants should be set 8 to 10 inches apart each way. Lettuce seed is sometimes sown in rows in the field and the plants thinned out to stand the proper distance.

The soil for lettuce should be thoroughly prepared as very little cultivation can be given when the plants attain considerable size. While the plants are small, the soil should be cultivated to keep down weeds and prevent a crust forming. In the frames, a hoe or hand weeder can be used, while in the open a wheel hoe can be used to good advantage.

There are two general types of lettuce, loose leaf and the heading types. Of the loose-leaf types, the Grand Rapids and Black Seeded Simpson are among the best varieties, while the Big Boston is the best variety for market.

manure is available, apply at the rate of 100 pounds per tenth acre of a good grade complete fertilizer.

Sow the radish seed in rows 12 inches apart in the field and cover one-half to one inch deep, depending upon the soil. On light, dry soil, cover one inch deep and on heavy moist soil, cover one-half inch. When grown in hot beds or cold frames the rows of radish need not be more than four or five inches apart, or just wide enough for hand hoeing and weeding.

There are three types of radishes, turnip-shaped, olive-shaped and long. Of the turnip-shaped, the best varieties are the Scarlet Globe and Scarlet Turnip. The best of the olive-shaped are the French Breakfast and Early Scarlet. The Charter Long Scarlet, Long White Spanish and Icicle are the best varieties of the long type.

ALLEN-DANIEL.

A wedding that came as a great surprise to the friends and relatives of both parties was that on Tuesday when Miss Gladys Daniel and Herbert Allen were married at the Court House. The bride is 16 and is a resident of Dukesboro, Tenn., having been boarding here for the past few weeks and working in the veneer mill of the Mengel Box Co. The groom is the eldest son of Mrs. Mattie Allen and has been reared here, being well known.

SCHOOL NOTES.

Interesting School Items by Miss Virginia Luten, Co. Supt.

The Cayce school will open August 19th.

Among the speakers who will be at the Teachers' Institute at Mayfield, August 26th are: Dr. Crossfield, president of Transylvania University; Mr. McHenry Rhoads, State High School Inspector; Miss Lida E. Gardner, National Organizer Parent-Teachers Association; Dr. H. H. Cherry, president Western Normal; Profs. R. P. Green, O. L. Cunningham and Byron King, and a number of others.

The first district to report the organization of the War Savings Society is Walnut Grove with Miss Stella Williams, president and Miss Elizabeth Kelly, secretary. This district is showing its patriotism by the way it is responding to the requests of the government in the various lines of war work.

Miss Lee Ella Lowe will teach the Roper school again this year, beginning September 2nd.

Amos Matheny has been on the sick list for several days.

R. V. Putnam is making a "hand" at the River Front garage.

Atty. R. O. Hester is in the firm's office for the remainder of the week.

TWO POUNDS SUGAR.

Is the Allowance Now, Instead of Three as Heretofore.

If the Hickman housewife thinks her three pounds of sugar ordered today, looks a little shy in weight—its because there are only two pounds in the package. Your merchant must comply with the Food Administration's new ruling, which cuts the allowance to two pounds per capita per month, instead of three. The order is effective beginning today.

In the statement it was pointed out that production had fallen off and that the demand had increased. For householders, the rationing is voluntary. In the case of hotels and restaurants it will be enforced.

GOLDEN WEDDING.

Is Celebrated by Mr. and Mrs. Sam B. Parker, Sunday.

Mr. and Mrs. Sam B. Parker, two as fine citizens as there are in the Commonwealth and greatly loved here by their hosts of friends, celebrated Sunday, July 28, their 50th wedding anniversary, or Golden Wedding.

In honor of all these years of happy married life, Col. and Mrs. C. L. Walker (the latter being their daughter) entertained last evening a large number of the couple's friends, and the occasion was one of genuine, 100 per cent pleasure for all who had the pleasure of being present.

The couple were recipients of a large number of beautiful gifts in keeping with the occasion, along with congratulations and good wishes. Refreshments of cream and cake were served.

The following were present: Mrs. Maggie Randle, Mrs. C. G. Schlenker, J. T. Stephens and wife, J. R. Brown and wife, Mrs. I. D. Price, Mrs. Victoria Walker, Nim Walker and wife, J. H. Millett and wife, Mrs. Dee Reid, Miss Frankie Reid, R. M. Isler and wife, J. W. Rogers and wife, T. T. Swayne and wife, W. C. Speer and wife, J. C. Sexton and wife, A. A. Faris and wife, Mrs. Florence Faris, Misses Lite and Irene Faris, Miss Adell Allen, Dr. and Mrs. W. M. Bright, E. B. Prather and wife, Miss Allie Dodds, W. J. Barry and wife, Mitchell Wright and wife, Austin Vorhees, Mrs. E. E. Reeves, Mrs. Lon Palmer, Swayne Walker, wife and daughter, Mrs. Chester Barnes, Mrs. Wallace Crockett, of Troy, L. A. Smith and sons, of Troy, and Mrs. Jim Conran, of New Madrid, Mo.

Mr. and Mrs. Parker are not "old folks," in the common sense of the word—they have just been here a long time—and are as jolly and full of life as the average couple celebrating their 5th anniversary. The Courier joins their many friends in the wish that they may live to see a 100 years more.

Incidentally, it might be added that Mr. and Mrs. Parker's golden anniversary is one of the few celebrated here in the past quarter of a century; only three others we recall at present—H. Buchanan and wife; Otto Hertweck and wife and R. E. Millett and wife—all of whom, except Mr. Hertweck, have passed away.

PUSH HUNS BACK.

Enemy Positions Reported to Be in Grave Danger.

In spite of tremendous efforts put forth by the Germans to check the relentless pressure of the allies north of the Ourcq River, the German positions there are in grave danger. French, British and American troops, east of Fere-en-Tardenois, have driven a wedge into the enemy's line and seem to be in a position to compel a hurried retreat from Roncheres and St. Genne, at the extreme bottom of the salient between Soissons and Reims.

The allied line today runs south from Soissons to Grand Rozoy, and then it begins to turn to the east. It passes just north of Fere-en-Tardenois and continues the apex of the wedge at the village of Nesles, where it runs sharply toward Roncheres.

All around the salient there has been a continuous battle during the last two days, with the Germans launching repeated counter attacks. They have all failed and the allies have gained important ground.

Immediately south of Soissons and west of Reims the German lines are strongly held, but enemy efforts to improve his position in the latter region have broken down.

There now seems to be little doubt that the Germans will retreat to the Vesle River as soon as possible.

Seventy-one German divisions (394,000 men), so far have been used in the battle area of the Marne-Aisne salient. They comprise more than one-third of the whole German army, and the best third.

Five of these divisions have been in action since the German attack began on July 15, and what perhaps is most significant, ten of them are from Prince-Rupprecht's army group in the north, thus reducing the mobile reserve forces opposite the British by nearly one-half.

MRS. THOMAS MARRIED.

Mrs. Walter N. Webb, of Seattle, Wash., writes the Courier as follows: "Enclosed find money order for year's subscription to The Courier, which please start at once. You will remember me as Mrs. Maggie Thomas—now Mrs. Walter N. Webb. Have one of the best men on earth and am real happy in my new western home."

PICNIC AUGUST 15

Masons of County Will Hold Joint Picnic and Fish Fry.

The committee in charge of arrangements for a joint picnic and fish fry for the Masonic bodies of Fulton county met at Cayce last Wednesday and named Thursday, August 15th, as the date for this fraternal gathering. It is to be held at Willingham Bridge, about mid-way of the county, and will be an all-day affair. This picnic was scheduled to take place June 21, but on account of so many farmers being engaged in harvest, it was postponed.

A member of the committee informs us that they hope to make it a pleasant day for old and young; that there will be music, speaking, games for the little folks, refreshments, etc. While fish and coffee are to be free, folks are asked to bring baskets sufficiently filled to provide for their immediate families and guests.

In order that war industries may be supplied with their maximum requirements of fuel during the coming winter at the expense of nonessential plants, the United States Fuel Administration has called for a census of all state and county departments and institutions, public utilities and manufacturing plants which consume coal for power and heating. Nonessential industries will likely have their coal allowance cut down.

WINTER GARDEN ON EVERY SOUTHERN FARM

(Prepared by the United States Department of Agriculture.)

Every Southern garden should have a supply of lettuce, spinach and radishes throughout the fall and winter and spring, as they can be easily grown and form valuable additions to the usual dry, winter diet. With more of such food products in the diet, there would be less use for spring tonics and other medicines. In addition to this, these food products are palatable and serve to lower the cost of living.

These crops attain their best development on a sandy loam soil well supplied with humus or decayed vegetable matter. All of them thrive best during the late fall or early spring and will not withstand the heat of summer. In all sections of the lower South, lettuce, spinach and radishes can be grown in the open throughout the fall, winter and spring. In the more northern of the Southern states and in high altitudes these crops can be grown in fall and spring in the open and during the winter in hotbeds or cold frames.

To have lettuce and radishes throughout the season, it is advisable to make sowings of seeds every two or three weeks. As soon as the crop is removed, another crop should be planted. The radish seed might be sown between the rows of lettuce if hand cultivation is to be given. The radishes would be harvested before the lettuce reached sufficient size to crowd. By making two sowings of spinach, one in the fall and another in late winter or early spring, a continuous supply can be secured.

Lettuce.

In growing this crop in the open or in hotbeds and cold frames, the best results can be secured by sowing the seed in a well-prepared bed and transplanting the young plants. Sow the seed thinly in drills 4 to 6 inches apart and cover about one-half inch deep. For the best results, transplant the young plants as soon as they form the first true leaves. Set these plants in a cold frame 2 inches apart each way and at once as they reach a height of 1½ to 2 inches, take up the plants with a trowel or spade and set to the permanent bed. If planting in the field, set the plants 8 to 10 inches apart in rows 14 inches apart. When

of the head type. For home use, the Hanson of California Cream Butter might be grown, as they are of better quality than the Big Boston. The markets of the East demand a hard head lettuce of the Big Boston type, but the markets of the Central use more of the loose-leaf lettuce. Unless growing for local market, however, it is best to grow the headed type, because large quantities of the other kind are grown under glass in the central states.

Spinach.

Spinach can be grown in the open in all sections along the coast from Norfolk, Va., south and in practically all sections of the lower tier of Southern states. In the colder regions of the South, this crop can be grown in the open with a little protection or in canvas-covered cold frames throughout the winter.

The soil should be made fairly rich. Well-rotted manure is the best fertilizer, but if this is not available, apply at the rate of 50 to 100 pounds of a high-grade fertilizer per tenth acre. Sow the manure or fertilizer broadcast and thoroughly harrow into the soil. Five ounces of seed will make two plantings on the plot 20 feet square in drills 10 to 12 inches apart. Thin the plants out to stand three or four inches apart. Frequent shallow cultivation by hand or with a wheel hoe should be given. When grown in frames, the cultivating must be done by hand. In most sections of the South, however, spinach can be grown in the open without any protection, as a hard freeze causes very little injury.

The variety of spinach most commonly grown is the Savoy. At Norfolk, Va., the large truckers grow a strain of this variety called the Norfolk Savoy.

Radish.

Radishes should be grown rapidly to insure good table qualities. The soil should be fertile and contain abundant moisture. Fresh stable manure should not be used, however, as it would produce excessive leaf growth. Well-rotted manure is the best fertilizer and should be applied at rate of about two tons per tenth acre. If no

SOUND RADISHES OF UNIFORM SHAPE AND SIZE.

transplanting to frames, the plants should be set 8 to 10 inches apart each way. Lettuce seed is sometimes sown in rows in the field and the plants thinned out to stand the proper distance.

The soil for lettuce should be thoroughly prepared as very little cultivation can be given when the plants attain considerable size. While the plants are small, the soil should be cultivated to keep down weeds and prevent a crust forming. In the frames, a hoe or hand weeder can be used, while in the open a wheel hoe can be used to good advantage.

There are two general types of lettuce, loose leaf and the heading types. Of the loose-leaf types, the Grand Rapids and Black Seeded Simpson are among the best varieties, while the Big Boston is the best variety for market.

manure is available, apply at the rate of 100 pounds per tenth acre of a good grade complete fertilizer.

Sow the radish seed in rows 12 inches apart in the field and cover one-half to one inch deep, depending upon the soil. On light, dry soil, cover one inch deep and on heavy moist soil, cover one-half inch. When grown in hotbeds or cold frames the rows of radish need not be more than four or five inches apart, or just wide enough for hand hoeing and weeding.

There are three types of radishes, turnip-shaped, olive-shaped and long. Of the turnip-shaped, the best varieties are the Scarlet Globe and Scarlet Turnip. The best of the olive-shaped are the French Breakfast and Early Scarlet. The Charter Long Scarlet, Long White Spanish and Icicle are the best varieties of the long type.

WHEAT WILL WIN THE WAR.

A noted English statesman said recently that if the people of America had failed to save this year that England and France would have been compelled to withdraw from the fight and as a result the Allies would have lost the war. This demonstrates the importance of wheat and teaches us that WHEAT WILL WIN THE WAR.

The Government of the United States realizes that the two most important factors in winning the war are men and food and so is drafting the best manhood of the country for the service in the trenches and is calling on the farmers to produce the maximum amount of food. There is no better way for farmers to answer this call for food than by sowing this fall every acre to wheat that is possible and to sow it with such care that it will yield a bountiful harvest.

The patriotic farmer will give no thought to the price he will receive for his wheat but will think only of the starving poor of Europe and our boys in the trenches who are fighting our battles and who must be fed.

Our boys are drafted into the army by the Government and the wages they shall receive, which may be the wages of death, are fixed by the Government and the boys who do not spend any time figuring whether they can afford to fight our battles for these wages. They know their country has called them and they answer the call without complaint or reservation. Your country is asking you to raise as much wheat as possible and you will not spend any time figuring whether you can afford to grow wheat at the price fixed by the Government. You should

realize only that your country has called you and you will do your best for WHEAT WILL WIN THE WAR.

No thought should be given to the possibility of being unable to harvest the wheat next year for the Government will permit no wheat to go to waste but will find some means of providing laborers for the harvest.

England has sent more than six million men to fight her battles and in spite of this will harvest this fall the largest wheat crop in her history. What England has done—America will do.

Every patriotic American citizen salutes his flag when he rises in the morning and says "I will this day do my best to help win the war."

From now until wheat sowing time the patriotic American farmer will salute his flag when he rises in the morning and will say it firmly "I will this fall sow all the wheat I can for WHEAT WILL WIN THE WAR."

JUTLAND

In a Jutland Village.

JUTLAND, the low-lying, sandy peninsula whose name historians probably will employ to designate the great naval battle fought off its shores by the British and Germans, is the continental portion of Denmark and comprises nearly two-thirds the area of the kingdom (exclusive of colonial possessions), but with considerably less than half the total population. It compares with Vermont in size, but has a density of population three times as great, says a bulletin of the National Geographic society. Its most striking physical characteristics are the fjords which cut into the sandy seaboard, particularly on the west coast. Of these the largest, Limfjord, is today a misnomer for since 1822 it has been a sound, joining the waters of the North sea with the Kattegat and making an island of the extreme northern portion of the peninsula which terminates in a cape called the Skaw. Owing to the character of the soil on both banks, the rapidity of the current and the violent impact of the floating ice in the spring, only a pontoon bridge spanned this sound at Aalborg until recently.

The highest point of land in Jutland, which is also the highest in the kingdom, is a 564-foot "eminence" in a line of low hills near the center of the peninsula.

Ancient Home of the Cimbric.

Jutland was the ancient home of the warlike Cimbric, a tribe which for 12 years kept Rome in a state of panic, and which was the first Germanic host to make its way across the barrier of the Alps into northern Italy, participating in the descent of the Visigoths five centuries. The Cimbric came within the purview of recorded history in 113 B. C., when, after having been driven from their northern home, supposedly by North sea inundations, and having made their way southward through the German forests, they inflicted a signal defeat upon a Roman army under Consul Papirius Carbo at Norela. Instead of following up their success into Italy, the victors pushed westward into the Rhine valley. Four years later, however, they practically

annihilated the Romans under Marius Junius Silanus on the field Arausio, where 80,000 troops were slain. This terrible reverse sent a tremor of terror through the lawmakers on the Capitoline hill, and the constitution was set aside in order that Marius, fresh from his triumphs on African battlefields, might be invested with consular powers for five years. He was deemed the man of the hour and the only general who could turn back the tide of barbarians that had debouched from Cimbric Chersonese, the name given to Jutland. While this tribe poured over the Alps, driving the forces of Catullus before it across the Adige and the Po, Marius administered a crushing defeat at Aquae Sextiae in Gaul to the Cimbric's companions in arms, the Teutones. The consul then rushed back across the Alps and at Campi Raudii, near Vercelli, where a century earlier Hannibal had won his first victory on Italian soil, the invaders were utterly annihilated, all the men being killed or captured while the women slew themselves and their children in preference to being borne to Rome in slavery.

Its Agricultural Regeneration. Jutland's agricultural poverty dates from the beginning of the sixteenth century, by which time the peninsula had been almost completely denuded of its forests. It was not until 1893, two years after Denmark had been forced to relinquish Schleswig-Holstein to Prussia and Austria, that the Danish people began an appraisal of the latent agricultural possibilities of their remaining domain to see if by cultivation they could compensate for their territorial losses. Col. E. Dalgas, an engineer officer of the Danish army, was the leading spirit in the organization of the Danish Henth society, which began to plant trees throughout the peninsula, a movement which is still going forward and which has proved to be the salvation of the land. Mountain firs were first planted and these were succeeded by red spruce from America. These trees serve as a living barrier against the fierce sand-driving gales from the North sea.

The interior of the peninsula is fast losing its barren aspect, more than 2,500 square miles of heath having been redeemed by afforestation. Oats, barley, beetroots and rye are now grown profitably, cattle and sheep find good pasturage, and the forests teem with deer and wood pigeons. Typical of the growth of towns in this rejuvenated area is Herning, a settlement of 40 souls in 1806 and now a thriving community with a population of 5,000.

Jutland has a familiar ring in the ear of every schoolboy for he remembers that the Angles and the Jutes were among the first Germanic peoples to emigrate from the shores of the Baltic and settle in Britain.

FEZ, A STRONGHOLD OF ISLAM

Capital of Morocco Is Regarded as a Fair Specimen of What the Culture Produces.

Fez is the capital of Morocco. It is an odd mixture of progress and medievalism, or tolerance and fanaticism, of learning and superstition. These generalizations are the typical reaction of the occidental visitor to the life and manners of Fez. As a matter of fact, writes Niksah, Fez is no city of

A Cattle Fair in Jutland.

contradictions, but quite consistent in view of the fact that the culture of the Orient and Occident have proceeded along somewhat different lines. Fez is a stronghold of Islam and a fair specimen of what the culture produces.

There is much poverty, much oppression, much disease; there is also much charity, a justice that is sometimes disconcertingly swift and an atmosphere that can only be described as one of resigned cheerfulness. Commerce is conducted on a ludicrously diminutive scale, but the total of a month's trading in a six by ten emporium often mounts into staggering figures. Slaves are still to be had by those who know where to buy, and religious feeling runs so high that several Europeans have been killed for polluting the sacred atmosphere of mosques with their presence. Popular ignorance often reaches to the point where the individual in question is not cognizant of the existence of the American continent, and in the library of Fez are numerous absolutely priceless treasures in the shape of ancient tomes of learning. Certain books of Euclid, never seen by European eyes, are said to be guarded here.

THINGS WORTH KNOWING.

The lowest temperature ever recorded on the earth was taken at Verkhoyansk, in the interior of Siberia, on January 15th, 1885. It was 90 degrees and a fraction below zero. Verkhoyansk is in the latitude of the pole of cold. There the earth is frozen to a depth of about 100 feet, and in the warmest season it never thaws.

Out of every \$100 received by the railroads, \$40.80 is paid to the employees thereof; out of every \$100 paid expenses, \$62 goes as wages. If it is considered that practically all of the remaining \$38 of expenses is used in purchasing material and supplies, and that a large percentage of the cost of these represents wages, it is safe to estimate that not less than 80 percent of the expenses of the railroads is money paid directly or indirectly to labor.

CONVERTING LIBERTY BONDS.

The bonds of the first Liberty Loan pay 2½ per cent interest and were offered in May and issued June 15th, 1917. They will mature June 15, 1947 but may be redeemed by the Government after June 15th, 1932. These bonds may be converted into any subsequently issued bonds of the Government bearing a higher rate of interest.

The bonds of the second Liberty Loan pay 4 per cent interest and were offered in October and issued Nov. 15th, 1917 and mature Nov. 15th, 1942 but may be redeemed by the Government at par after Nov. 15, 1927. The bonds may be converted into the next issue only.

The bonds of the Third Liberty Loan pay 4½ per cent interest and were offered in April and issued May 9, 1918. They will mature Sept. 15th, 1928 and are not redeemable before maturity. These bonds cannot be converted into any subsequent issues.

Application for the conversion of bonds bearing a lesser rate of interest into this issue must be made before Nov. 9th, 1918.

All of these Liberty Bonds are issued in coupon form or registered form as may be required. The registered bonds are payable to some named person and the interest is paid by check from the U. S. Treasury. Such bonds if lost or destroyed may be replaced by the Government. Coupon bonds have interest coupons attached which are cut off and collected by deposit in

the bank and if such bonds get lost or destroyed they can not be replaced and the loss falls on the owner.

There is no charge by the Treasury Department for converting bonds into a subsequent issue or for changing bonds of any issue into registered or coupon form. The Farmers & Merchants Bank offers its services in forwarding Liberty Bonds for any purpose and is always glad to give information to any one interested.

FIRST CONVICTION.

James Lusk Fined For Allowing Stock To Run at Large.

The first conviction, under the new county stock law, which has been in effect several months, occurred Friday when James Lusk was fined \$3 and costs in Judge Stahr's court. Ezra Anderson and Forrest Coleman (a negro) were also arrested on the same charge and submitted and accepted a fine of \$5 and costs, the costs in each case being \$10.

Mr. Lusk's case might be termed a test case, as it was the first to come before the court. Where the proof is sufficient to establish the fact that one has permitted stock—including sheep, cows, horses, hogs—to run at large on public highways or on another's property, without consent of the owner of such property—conviction is sure to follow. It will be remembered that the election, resulting in this law, was contested and held valid by Judge Bank Gardner. The higher courts, of course, have also sustained stock laws and there is no way round its enforcement. If the authorities choose to cause the citizens of the county to live up to its requirements.

Sudden Retreat of an Army Is Often Reduced to Chaos And the Resultant Disorder

"Moving a great army is an affair of time-tables. There is room for only a certain amount of men and material on the roads and railways at one time, and every man and every wagon above that maximum becomes a factor of confusion and retards the movement of the whole mass to a dangerous degree," writes G. Ward Price in the Century. "The sudden retreat of an army is often reduced to chaos, first, because a thoroughly worked out plan of general retirement exists but rarely in the strong-boxes of any general staff, and, secondly, because in the absence of a time-table drawn up in detail and strictly enforced, the elementary principle of self-preservation leads every unit of the army to put itself on the road just as quickly as it can get transportation. This is not to say that confusion is an invariable indication of personal panic; but it is very natural, and even very proper, that every battery commander, the director of every military store and depot, and the leader of every body of troops which is not definitely ordered to remain, should have the individual determination that his particular command shall not fall into the hands of the enemy.

"The artillery officer firmly resolves that he will save his guns at all costs; the heads of the supply departments are in charge of valuable stores which their army needs for its very existence and which would be of great aid to the enemy if captured, and the troop leader naturally argues that it would be futile to allow his men to be cut off when a general retreat has been ordered. So if the organization of withdrawal is left to the discretion of the people involved in it, as it has to be when the whole thing has not been deliberately arranged beforehand, confusion is almost inevitable."

424 IN SERVICE.

Fulton County Well Represented in United States Army.

Up to the present time, Fulton county has 424 drafted men and men in the draft, in the service in the various departments of military service. This does not take into account those who have volunteered, which should easily make the total 500. 72 men were drafted under the old system; i. e. before the questionnaire was issued; and 352 questionnaire men have been inducted into service, 87 of which went last month.

There still remains in class one, approximately 130 men; which number will be slightly increased through reclassification, now being made by the local board. Present indications are that Fulton county will have sufficient men in class 1 to take care of all calls the balance of the year.

THE 1918 ASSESSMENT

Under the new law, tax assessors in Kentucky are no longer to visit each taxpayer and list his property for taxation. On the other hand, it is the taxpayer's business to go to the assessor's office and give in his taxable property. Failure to do so on or before October 1 will subject you to a fine of \$50. But, for the love of Mike, don't wait until the last minute to give in your assessment. It will be better for both Assessor Coffey and yourself to attend to the matter early and have it off your hands.

WHEN LITTLE ONE SINGS

When evening comes over the gray shadows fall,
Softly my Little One sings:
Cuddles and coos to a little rag doll,
And babbles of wonderful things.
Voice like a linnet, and eyes like a dove,
Little One rocks in her chair,
And tenderly sings, while her motherly love
Warms to her little one there.

I want to get down by the side of her,
Too,
And rock-a-by back through the years,
Voyaging the Slumberland River of blue,
Untroubled by doubtings or fears,
To drift to a nest in the crook of an arm,
And lie in a cuddle of dreams;
Ah, Little One, sing me the wonderful
charms

Up, up from the Lullaby stream,
And sing while the heart of you bursts
In a song.

Cuddle your little one so,
For yours is a fleeting time, age is so
long,
And you, little singer, will grow.
Age will lay hand on your curly, brown
hair,
Make you a grown-up too soon;
Hustle you out of your little red chair—
Sing, sing, while your heart is in tune!

Softly gray shadows come deeping down,
Little One journey away
Mother and Dolly to Slumberland Town,
Drowsy-eyed dreamers astray,
Leaving me here where a mist of her
song

Falls on my heart like a dew,
And heaven, I thank you, through age is
so long,
Many the dreams that come true.
—Jay B. Iden in the Kansas City Star.

Mother's Cook Book

War Foods.

The new things that are being thought out by our housewives today will fill many recipe books and be a source of great comfort, because they mean good things with no increase in the foods we must save for our armies.

Cream Pie, Rice Crust.

Cook a cupful of rice in milk or in water until tender. Line a well greased pie tin with the rice, then fill with the following cooked filling: A pint of milk, yolks of two eggs, a teaspoonful of corn starch, a half cupful of honey, and a teaspoonful of vanilla; cook until smooth and cover with a meringue made with the whites; set into the oven to brown.

Honey Custard.

Cook a pint of milk, a half cupful of honey and grating of nutmeg, two eggs, and a pinch of salt, over hot water stirring constantly, or bake setting the cups in hot water. Maple flavor may be used for a change.

Steamed Brown Bread.

Take two cupfuls each of barley flour and corn meal, one and a half teaspoonfuls of soda, three-fourths cupful of molasses, two cupfuls of sour milk, a teaspoonful of salt; mix well and steam three hours.

Potato Flour Sponge Cake.

Separate the yolks and whites of four eggs, beat yolks until thick, add one cupful of sugar, beat well, add the whites beaten stiff, a pinch of salt, a half cupful of potato flour and a teaspoonful of baking powder. Bake in a moderate oven over 30 minutes.

Raisin Drop Cakes.

Take a third of a cupful of shortening, a cupful of sugar, two eggs, two cupfuls of corn flour, a cupful of raisins, a teaspoonful of vanilla, a cupful of milk. Mix as usual; bake in a moderate oven.

Cornmeal Muffins.

Take two tablespoonfuls of shortening, a half teaspoonful of salt, a half cupful of corn meal and five-eighths of a cupful of wheat flour, a teaspoonful of salt, two teaspoonfuls of sugar, the white of an egg and two-thirds of a cupful of milk. Cream the shortening and sugar, add salt, then milk, alternately with the dry ingredients. Lastly fold in the white of egg beaten stiff. Bake 20 minutes.

Jews in Kaiserland Unite for Protection of Rights

German newspapers recently received in London report the amalgamation of all the Jewish associations of the empire for the protection of the "legal rights of German Jews." The program adopted is described as their "irreducible minimum." The president is James Simon, a Berlin merchant prince contemptuously known in Junker circles as the "Court Jew" because of the kaiser's professed personal friendship for him. The main demands of the new organization, as set forth in the Vossische Zeitung, are "legal and genuine" equality of rights and opportunities with other citizens "in all states," including the unrestricted right of emigration into the Turkish empire, especially Palestine. Similar centralization of Jewish associations, it is stated, is imminent in Austria-Hungary, Turkey and Bulgaria.

Restricting Walnut Exports.

The authorization of exports of walnuts from the French colonies (except Tunis and Morocco) to American and allied countries has been canceled, according to a dispatch from Consul General Thackara in Paris. Special license must now be obtained and from the mother country as well. Similar action was taken regarding exports of animal hair from the colonies to this and other allied countries.

QUARTERLY COURT.

Cases of Interest Disposed of in Fulton Quarterly Court.

The following cases have been tried in Fulton Quarterly Court before Judge E. J. Stahr, since last report: Willie Scates, a negro, was fined \$50 and costs for drawing and flourishing a deadly weapon; viz: a shotgun.

On account of the absence of witnesses the preliminary trial of Geo. Bragg, charged with killing Tom Hughes, another negro, has been continued.

The following were fined \$20 and costs each on charge of gaming: Will Robertson, Ed Shane, Marshall Salles, Rufus Williams, Mose Uils, Freddie Jackson, Bob Coley, Sullivan Fair, Jeff Harris, Dave Weatherly, Lee Cunningham, Knott Bird, George Bragg. Total for the unlucky dozen, \$240, plus costs.

George Bragg, breach of the peace, \$1 and costs.

A. L. Lankford, same, \$5 and costs. Fred Murphy, charged with stealing an auto, bound over under a \$200 bond.

Mary Hansborough, stealing chickens, grand larceny charge, under \$200 bond.

Dad Davis, furnishing liquor to a minor, fined \$50 and costs.

Illinois Oil Company, failing to have oil inspected, \$20 and costs.

Chester Wright, breach of the peace, \$1 and costs.

A Word to Our Customers:

It is hardly necessary to state that all stores are experiencing great difficulty with delivery service on account of the growing scarcity of help. It is unavoidable.

We are therefore compelled to make the best of a bad situation, and it will be only through the co-operation of our friends and customers that we can hope to keep our delivery service anything like satisfactory. You can help us materially by—

1st—Phoning us your orders EARLY; as the first delivery LEAVES at 8:30; and the next at 10:30.

2nd—Not waiting for us to call you nor waiting for delivery boy to call for your order. If you who have phones will just step to the phone and give us your order, it will be a great help.

3rd—The EARLY PHONED-IN order will not only result in more satisfactory service TO YOU, but will assist us in maintaining the delivery service; otherwise, it is only a question of time when all delivery service will have to be discontinued.

RED CROSS NEEDS WORKERS.

Our Red Cross Chapter has received a call for 1,500 surgical dressings, 150 refugee shirts, 50 pairs of bed socks, 500 pairs of knitted socks, and 75 sweaters to be sent from here each month. All surgical dressings must be made in the Red Cross work rooms at the Court House. Refugee and knitted garments may be made in the homes of the workers. Come and learn how to make them and then finish them at home if you like. Every lady in the community from 15 to 75 years of age, who possibly can do so is urged to come to the work rooms and help. The rooms are open from 9:00 a. m. to 12:00 and from 1:00 to 6:00 p. m. Come at the time most convenient for you and work what time you can. You will find there is much you can do to help. Those who have worked this week since the rooms were reopened are: Mesdames Brantley Turpin, H. C. Amberg, J. H. Millett, Allie Goulder, R. L. Bradley, Lawrence McMakin, E. R. Ellison, L. A. Stone, A. O. Caruthers, Alice Amberg, Maggie Randle, Misses Mattie DeBow, Clara McConnell, Elise Luten, Mildred Goulder, and Mrs. Nora Fuqua. Ten times this number of workers are needed. Don't be a slacker, but come and help.

ASST. ATTORNEY.

Judge F. S. Moore Named to Handle County Attorney's Office.

County Attorney Dee L. McNeill has volunteered for service as a yeoman in the U. S. navy and leaves today for Louisville, thence, probably, to the Great Lakes Naval Station, near Chicago. His leaving, of course, makes it necessary to have someone else look after his duties as county attorney, and he has named as his assistant, Judge Frank S. Moore, of Hickman, who will have charge of the office.

Judge Moore was sworn in yesterday. It is needless to say that he is qualified for the position. He is one of the leading and most able lawyers in Western Kentucky.

Mr. McNeill was elected last year and has served only seven months of his four year term. His many friends trust that he may shortly return and resume his official duties. It is a real act of patriotism to give up a good paying office and voluntarily join the military forces, with its attendant hardships and uncertainties.

MARRIAGE LICENSES.

Since last report, the following marriage licenses have been issued by County Clerk Henry—and they are all colored:

Will Curtis, 52, and Susie Flake, 18. Houston Thomas, 21, and Pecola Hamilton, 22.

Ike Sutton, 46, and Olivia Foster, 27.

JONES APPOINTED.

Chairman Bakers Service Committee for Thirteen Counties.

Percy Jones, of Hickman, the "Eatmore" bakeryman, was appointed Monday as chairman of the Bakers Service Committee of Western Kentucky, comprising the counties of Ballard, Caldwell, Calloway, Carlisle, Crittenden, Fulton, Graves, Hickman, Livingston, Lyon, Marshall, McCracken and Trigg, and is one of the four men in Kentucky, whose duty it will be to see that all laws governing bakeries are enforced and to co-operate with the U. S. Food Administration. All bakeries in this district must make requisition through Mr. Jones, in case of failure to obtain supplies, etc.

Mr. Jones is a live wire and a good man for the place. The administration may depend upon him doing his full duty. The fact that he was appointed over dozens of other well known bakers in this district is a decided compliment.

DO YOU NEED MONEY?

The Hickman Building & Loan Association announces the opening of Series "F-3" August 1st.

Money loaned to members only.

Those who desire to apply for loans later should join now.

The last legislature placed Building & Loan associations under the supervision of the state Banking Department.

Under the new law these associations are to be examined by special examiners sent out by the Banking Commissioner. This plan furnishes a protection similar to that under which banks operate.

The Hickman Building & Loan Assn. has operated with success and safety for 28 years. We are pleased to call attention to this new law which doubly safeguards the interests of our members.

DESERVES A GOLD MEDAL FOR THIS.

Cincinnati authority tells how to dry up any corn or callus so it lifts right off.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezone costs very little at any drug store but is sufficient to take off every hard or soft corn or callus. This should be tried as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

Miss Harriette Kline, of Eaton, Ohio, who is the guest of Mrs. C. G. Schlenker, was the honoree of an enjoyable party given on Wednesday evening of last week when Mrs. R. L. Bradley entertained a large number of friends at five tables of "500" and one table of Rook. The rooms were all thrown open together, the color scheme of yellow being effectively carried throughout in the great variety of used also in the excellent salad course that was served. The guests were yellow nasturtiums and sunflowers.

Misses Kline, Annie Lee Brown, Mildred Ramage, Inez and Virginia Luton, Nell Rogers, Bettie Louise Curlin, Celeste Roberts, Bess and Mildred Thompson and Carrie May and Frank Reid, Mesdames Fred Maddox, Guy Hale, Mack Reid, Swayne Walker, J. NEW SUGAR RULING.

More than 50 million pounds of sugar was sunk by submarines recently and sugar is scarce at this time.

The rulings for August just received from the Federal Food Administrator is 2 pounds per person per month, and the merchant is required to keep a book or card system with the name, address, and the number of persons in each family that they sell sugar and the amount of sugar sold to each family, this book will be inspected by the Food Administrator and he will see that the rule is carried out and people who get sugar from several merchants will be dealt with according to the instructions laid down in this ruling.

Washington advises that all people must can and preserve all the fruit that they can, and advises that the fruit be canned now and preserved later on when the sugar shortage is overcome. For canning you will be allowed 25 pounds of sugar and no more, so it will be necessary to be very careful about how you use sugar.

Has Taken Medicine From Five Different Doctors Without Relief From Stomach and Nervous Trouble of Eight Years Standing

"May God's greatest blessings be with you for what Vin Hepatica has done for me," writes Mrs. Ida V. Marlar, of 206 Ethnor St., West Chattanooga, Tenn.

"It has saved my life. I had suffered from stomach trouble and nervousness for eight years, and had tried treatments of five of the best doctors without doing me any good. I was so poor and weak I could hardly go; my neighbors thought I had consumption. Could hardly sleep, was so nervous. Vin Hepatica prescription, I sleep

soundly all night, and can truthfully say that I feel better than I have felt in eight years. Am fleshier and stronger and can eat anything. I hope everyone who has stomach trouble or nervousness will try Vin Hepatica. We don't know how to appreciate good health until we are nearly dead, and then get well. I am well and happy, and owe it all to Vin Hepatica."

Come in and get a bottle of this wonderful nature prescription, and try it on our recommendation.

CUT DOWN SPEED.

Driving Cars Faster Than Twenty-Five Miles May Cost You \$50.

County Attorney Dee L. McNeill serves notice on all car owners and drivers in Fulton county, that if himself or assistant is notified of any car being driven at a greater rate of speed than 25 miles an hour, the driver or owner will be vigorously prosecuted, and fined not less than \$15 nor more than \$50 for each offense. This is a state law and the authorities insist that it be enforced, on account of both the destruction of public highways and the liability of accident. It might be added that in case the county attorney fails to prosecute cases reported to him, he is subject to a fine of \$100 for failure to do his duty.

This is a good law and should be enforced to the fullest extent.

Mrs. Lyman is survived by her husband and four little children, two girls and two boys, one sister, two half sisters and a step-father all of whom were at her bedside when she died, and a half brother, who lives in Missouri, and other relatives and a host of friends to mourn her loss. She was a member of the Baptist church and a devoted wife and mother. Funeral services were conducted by her former pastor, Rev. R. H. Hampton, assisted by Rev. W. T. Holly, at Rush Creek Monday afternoon, after which the remains were laid to rest. The bereaved ones have our heartfelt sympathy.

GIRLS! LEMON JUICE IS SKIN WHITENER.

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever saw."

—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

THE KITCHEN CABINET

It is easy to say how we love new friends and what we think of them, but words can never trace out all the fibres that knit us to the old.

MORE GOOD THINGS.

Those who are privileged to have rabbits wild or tame will enjoy this dish. Wash two rabbits which have been cut in pieces for serving, place a layer of rabbit in a large casserole or stone-covered dish, then cover with a layer of finely sliced onion, a few whole peppers, three cloves, a

quarter of a bay leaf and a sprinkling of salt. Repeat the layers until the rabbit is all placed, then cover with water and vinegar, using one part vinegar to two parts water, cover the dish and let stand two days. Pour into a saucepan or kettle and cook slowly until the rabbit is tender. Remove the meat carefully and strain the sauce. Cook two tablespoonfuls of sugar to a deep caramel and add very slowly to the sauce. Mix two tablespoonfuls of flour with a little of the sauce and add to it, just before serving put the rabbit back into the sauce to reheat, add three tablespoonfuls of grape juice or jelly.

Potato Dumplings.—Take two cupfuls of mashed potatoes, add salt and nutmeg, one well-beaten egg, half a cupful of croutons well browned in butter a teaspoonful of fine chopped parsley, or half a teaspoonful of sweet marjoram.

Dainty Spring Salad.—Cook a pound of Italian chestnuts (shelled and blanched) in chicken or veal broth (seasoned with vegetables) until tender. Skim out, cool and cut in shreds. Cut tomato jelly in small shapes, shred half a green pepper, and cut a bunch of endive in julienne shreds. Wash and dry the heart leaves of two heads of lettuce and set them on individual plates, sprinkle over it the shredded articles and set the tomato bits above. Pour over two tablespoonfuls of the following dressing and serve.

Salad Dressing.—Cut a Bermuda onion in halves and with a thin, sharp knife scrape the juice into a bowl; add three-fourths of a cupful of olive oil, a cupful of red wine vinegar, one-fourth cupful of tomato catsup, a tablespoonful of Worcestershire sauce, one teaspoonful of mushroom catsup, half a teaspoonful of paprika and a teaspoonful of salt. Mix and beat until well blended.

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at... Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. E-77

But it Needn't be a Tornado!

You may rest secure in your faith that no TORNADO—no regular rip-snorting twister—will ever come your way! PERHAPS! One can never tell. You will not DENY, however, that your property has to withstand many DESTRUCTIVE WINDS each year. Do you know that TORNADO policies incur many more losses from WIND STORMS than from genuine tornadoes? Windstorm policies are trifling in cost but they have lifted many a grievous burden from overweighted shoulders. It is NOT can I afford to? but rather can I afford NOT to?
